

| InsTech Welcome and Introductions | | | |
|--|--|---|---|
|  | Todd Rissel CEO | e2Value, Inc. is a full-service application development and technology provider that offers products to assist with asset valuation. Its tools can be used for collateral asset valuation, risk management, and predictive modeling. e2Value is the SaaS provider delivering valuations for residential, commercial, and farm and ranch properties in the US and Canada. | T: @E2Value LI: e2value W: e2value.com |
|  | Paul Stanley CEO | 360Globalnet's mission is to provide digital online platform technology that will revolutionise the insurance claims process, offering personal and business customers the same standard of experience as online retail. | T: @360Globalnetcom W: 360globalnet.com/en |
|  | Jeff Manricks UK Sales Director | Shift Technology provides insurance companies with an innovative SaaS solution to improve and scale fraud detection. Its algorithms are tailored to reproduce fraud handlers' deductive reasoning, making investigations quicker and easier. | T: @shiftechnology W: shift-technology.com |
|  | Avinoam Baruch COO | Previsico is a global provider of real-time, street level flood prediction and analytical solutions, building round-the-clock resilience. It continuously models inundation using the latest combinations of rainfall predictions. Previsico launched as a Spin-Out from Loughborough University having piloted its systems with several early adopters incl. the Cabinet Office. | T: @previsico @AviBaruch2 W: Previsico.com |
|  | Niels Thorne CEO | BlockClaim provides a plug-in SaaS solution to simultaneously improve and scale Fraud detection as well as automate Claims processes. Through the innovative use of AI and Blockchain they are able to automate the whole claims cycle from fraud detection to settlement, which allows insurers to save up to 20% on operating costs and reduce processing time with 50%. | W: blockclaim.ai LI: blockclaim |
|  | Kristoffer Lundberg CEO | An overview to the forthcoming Insurtech Insights event on 19 - 20th March. | T: @ITI_Insurtech W: insurtechinsights.com |
| Break | | | |
|  | Eddie Longworth Director | Working from Board Level to Operational Consultant Eddie designs and delivers claims and supply chain transformation programmes to secure more effective methods of working. He has advised insurers and suppliers on 3 different continents and the last few years has seen a major expansion in the ClaimsTech sector. | LI: eddielongworth W: jelconsulting.co.uk |
|  | John Clarke Chief Innovation Officer | InsurTechnix develops and commercialises technology for cyber insurance and cyber security. Its risk detection/alerting tool collects data from policyholders. It uses AI to price premiums and automate quotes/claims procedures to strengthen underwriter operating models and identify profit pools. Policyholders benefit from improved coverage and reduced premiums. | W: insurtechnix.com LI: insurtechnix |
|  | Adam Richards COO | Albany Group provide regulatory software solutions to insurers, giving them complete oversight and management of their counter parties. Connect is designed to allow organisations, from SMEs to large enterprise, the ability to streamline, monitor and codify supply chain data in one single digital solution. | T: @Albanygrp LI: adamrichards2 W: albanygrp.com |
|  | Paul Davies Head of Insurance | ControlExpert UK blend technology and AI with skilled 'experts' to create claims propositions. This approach enables them to handle any claim, while maintaining quality and consistency in output. Their mission is to reduce both operational expense and indemnity exposure, as well as protecting against post claim liabilities. | T: @ControlExpertUK W: controlexpert.com |
