	<p>Serif Otterburn Stewart Reeder Financial Services and Insurance</p>	<p>Hitachi is the 7th largest technology group in the world. They combine advanced information technology with operating technology to resolve issues faced by society. This includes making cities, business and people interconnected and smarter, thereby transforming risk. Insurers need to understand and utilise this new scale of data so they can calculate risk appropriately.</p>	<p>@HIT_Consulting Li: hitachi-consulting hitachiconsulting.com</p>
	<p>Chris Gill Divisional Head of Risk Solutions</p>	<p>QBE Insurance Group Limited is listed on the Australian Securities Exchange, is one of the top 20 global insurance and reinsurance companies as measured by net earned premium and has operations in over 30 countries.</p>	<p>@QBEO Li: qbe qbeeurope.com</p>
	<p>Stephen Chadwick MBA FIoD CEO</p>	<p>Shepherd's automated technology provides total risk management. Using preemptive maintenance and risk management analytics to reduce property and compliance risks, they improve the operational efficiency and sustainability of the built environment.</p>	<p>@ShepherdNet Li: shepherdnet shepherd.fm</p>
	<p>Mark Dennis European CEO</p>	<p>Digital Partners collaborates closely with insurance start-ups and digital verticals, working with them to develop scalable and sustainable insurance businesses. They operate with a global mandate to build a more engaging insurance proposition.
