	<p><b>Rafał Modrzewski</b> CEO <b>Lisa Wardlaw</b> VP of Insurance Solutions</p>	<p>ICEYE delivers unmatched persistent monitoring capabilities for any location on earth. Owing the world's largest synthetic-aperture radar constellation, the company enables objective, data-driven decisions for its customers in sectors such as insurance, natural catastrophe response and recovery, security, maritime monitoring and finance. ICEYE's data can be collected day or night, and even through cloud cover.</p>	<p><a href="#">@iceyef</a> <a href="#">Li: Iceye</a> <a href="http://www.iceye.com">www.iceye.com</a> <a href="#">InsTech London Member</a> <a href="#">Podcast</a></p>
	<p><b>Forbes Mckenzie</b> Chief Executive Officer</p>	<p>Mckenzie Intelligence Services (MIS) is a global geospatial intelligence provider serving the Insurance market. Intelligence is delivered via ESA backed Global Events Observer which supports decision as a service capabilities. Combining machine learning and a team of UK military-qualified intelligence analysts, MIS has been appointed by Lloyd's of London to provide the market solution.</p>	<p><a href="#">@McKenzie_Int</a> <a href="#">Li: McKenzie Intelligence Services Ltd</a> <a href="http://www.mckenzieintelligence.co.uk">www.mckenzieintelligence.co.uk</a> <a href="#">InsTech London Member</a> <a href="#">Podcast</a></p>
	<p><b>Alun Jones</b> Chief Commercial Officer</p>	<p>Addresscloud provides software services to locate and describe addresses with rooftop level accuracy using high quality data from its market-leading partners. Its powerful APIs and intuitive applications help insurers understand more about their customers to reduce risk and make better decisions. Addresscloud's innovative, highly scalable cloud platform and deep industry knowledge are trusted by businesses from start-ups to global corporations.</p>	<p><a href="#">@addresscloud</a> <a href="#">Li: Addresscloud</a> <a href="http://www.addresscloud.com">www.addresscloud.com</a> <a href="#">InsTech London Member</a> <a href="#">Podcast</a></p>
	<p><b>Andrew Smith</b> COO</p>	<p>Fathom was formed from a University of Bristol hydrological research group. It provides flood hazard data using a combination of modelling and terrain and hydrography data. The company works with reinsurers, international development agencies, conservation agencies, and emergency responders. With the challenges presented by climate change, Fathom ensures that they are providing customers and partners with market-leading flood models based on the latest science.</p>	<p><a href="#">@fathom_global</a> <a href="#">Li: Fathom</a> <a href="http://www.fathom.global">www.fathom.global</a> <a href="#">InsTech London Member</a> <a href="#">Podcast</a></p>
	<p><b>Jonathon Hopper</b> Claims Manager</p>	<p>With a history dating back to the 1930s, Atrium is a specialist insurer and reinsurer, underwriting marine, energy, aerospace, non-marine and liability classes through the Lloyd's market. Atrium has a top-class reputation based on its impressive underwriting and claims expertise, exceptional performance and 'best in class' managing agency. Atrium offers exceptional accessibility, as the majority of its employees operate within the Lloyd's building.</p>	<p><a href="#">@AtriumUw</a> <a href="#">Li: Atrium Underwriters Ltd</a> <a href="http://www.atrium-uw.com">www.atrium-uw.com</a> <a href="#">InsTech London Member</a> <a href="#">Podcast</a></p>
	<p><b>Robert Porter</b> Product Director</p>	<p>Vave is a leading algorithmic underwriting MGA with a fresh approach to insuring high-volume risk. Devised and developed by Canopus in 2019, Vave relaunched as an MGA in June 2021, by which point it had quoted on over 1.2 million risks, representing \$2.2bn of premium. Vave is forecast to exceed \$100m premium by the end of the year, and, as a digital platform with diverse capital, Vave is positioned for rapid and sustained growth. Vave also has a proprietary, dynamic algorithm-driven approach to portfolio management, which adapts and optimises according to investor risk aversion.</p>	<p><a href="#">@Vave</a> <a href="#">Li: Vave</a> <a href="http://www.canopus.com/insurance/vave">www.canopus.com/insurance/vave</a></p>

	<b>Colin Masson</b> <b>Head of First Party Complex Claims</b>	Beazley are a group of global insurance professionals operating in the London market and specialising in marine, property, data breach and life insurance. With more than three decades of experience providing clients with high standards of underwriting and claims services worldwide, all of Beazley's insurance businesses are rated A (Excellent) by A.M. Best.	<a href="#">@BeazleyGroup</a> <a href="#">Li: Beazley</a> <a href="http://www.beazley.com">www.beazley.com</a> <a href="#">Instech London Member</a>
	<b>Gethin Jones</b> <b>Co-Founder and Executive Director</b>	Skyline Partners Limited, London-based Insurtech founded in 2017, is a parametric (or index-based) insurance specialist and underwriting agent. In the current hard market cycle with insurance rates increasing and underwriting conditions tightening, Skyline's strategy is to compete on value, by bundling its unique index-based products with traditional indemnity insurance.	<a href="#">@Skyline_Ptrs</a> <a href="#">Li: Skyline partners</a> <a href="http://skylinepartners.org">skylinepartners.org</a> <a href="#">Instech London Member</a> <a href="#">Podcast</a>
	<b>Jason Day</b> <b>Head of Location Intelligence Solutions (EMEA)</b>	Gamma Location Intelligence (Gamma LI) is a cloud hosted solutions provider that integrates software, data and services to help its clients reduce risk through location intelligence. Established in Dublin, Ireland in 1993, and with offices in Manchester, UK and Bilbao Spain, the company has expanded to become a global provider of cloud-native location intelligent systems and services. Gamma LI's Perilfinder™ risk mapping platform provides property underwriters with access to trusted property-level risk data easily, quickly and accurately.	<a href="#">@Gamma_irl</a> <a href="#">Li: Gamma Location Intelligence</a> <a href="http://www.gamma.ie">www.gamma.ie</a> <a href="#">Instech London Member</a> <a href="#">Podcast</a>
	<b>Devin Chawda</b> <b>Founder</b>	Founded in 2020, ARMD is a London-based insurtech created to better protect the livelihoods of tradespeople. Addressing an underserved £7.5B market opportunity in the UK alone, ARMD offers a suite of technology-enabled products and services designed to mitigate risk, minimise downtime, and maximise peace of mind.	<a href="#">@ARMD_LTD</a> <a href="#">Li: ARMD</a> <a href="http://www.armd.uk">www.armd.uk</a>
<b>20:10</b>	<b>SHOUT OUTS</b>	5 startups or insurance innovators to present their initiatives in front of the InsTech London audience. Each for 60 seconds. Get your notes ready.	<b>20:15</b>
